Why Invest?

Investing in fintech is very lucrative

Investing in the stock market is the most Powerful wealth generator

"The stock market and real estate are the two biggest wealth creators in history," says Sam Seiden, chief education officer at Online Trading Academy, headquartered in Irvine, California. "Investing in the stock market is much cheaper and easier than real estate for most people."

Fintech companies are bringing significant innovations into the market

It's becoming clearer by the day that change is coming, and Fintech companies are the fastest growing industry and bringing significant changes to the bank, financial market and stock Market.

Fintech companies are getting funding constantly

According to a recent McKinsey report, Fintech companies have received \$23 billion in funding over the past 2 years.

Investing in fintech companies is highly acceptable

In 2015, the amount of funding surpassed \$20 billion, which was a 66% increase over 2014's funding, and you can bet funding in 2016 was even greater. This shows that there is rapidly increasing interest in the Fintech industry, even by the traditional banks. It also shows that there is a valuable opportunity for anyone seeking for investment opportunity with new startup companies in Fintech and Stock Market Applications.

Why Us?

We are a up-and-coming fintech company

Description

we are a up-and-comer for the Stock Market Application year 2018 New In Market and in Town

Milestone

Opening a booth in Set in the city was a big milestone for us

Set in The City November 16th-19th 2017 in Thailand Organize by Thailand Stock Of Exchange was a big challenge for our Product due to first Take off in this competition from other brokers and developers . But it was great successful story in history for "Trade Mission "

We got the attention of the president of SET

Mrs. Kesara Manchusree President The Stock Exchange of Thailand was one of our visitors and expressed the great art of technology in the software for Thailand market which we took a lot of time and hard effort to approach the goal and in timeline as per our road map. Example Successful stories in Fintech which could get easy funding in Stock Market Application in 2017 .

Case Study

Robinhood

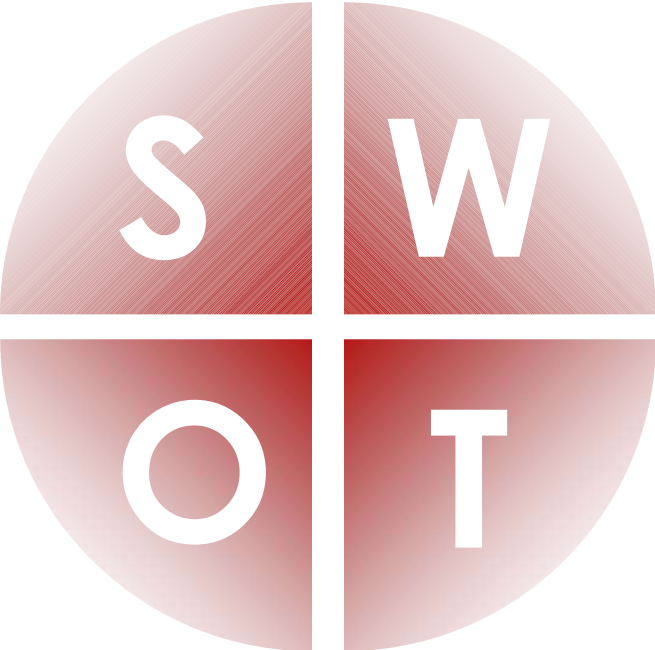

founded **2013** Value **\$1.3bn**

Trade Mission trading terminal contains a wide range of tools suitable for day traders, scalpers and algorithmic traders. Desktop, Web and Mobile versions of the trading terminal are available as well.

MST PLUGIN For AMIBROKER India and Thailand is live recently and start making clients and profit from first day of live and continue getting clients for this on weekly and daily growth with our new features .

India will be our new market because of its population size and broker size which has about 3000 brokers and we have already invested in a new office in Bangalore for over a period of 9 month. It serves our purpose of marketing and software development .

Our service fee is reasonable and will bring sustainable income to the investor , we also offer flexible payment option for Brokers .

Amibroker in Thailand and India, We have launch live new technology named " Intelligence ticker for Amibroker in Market .

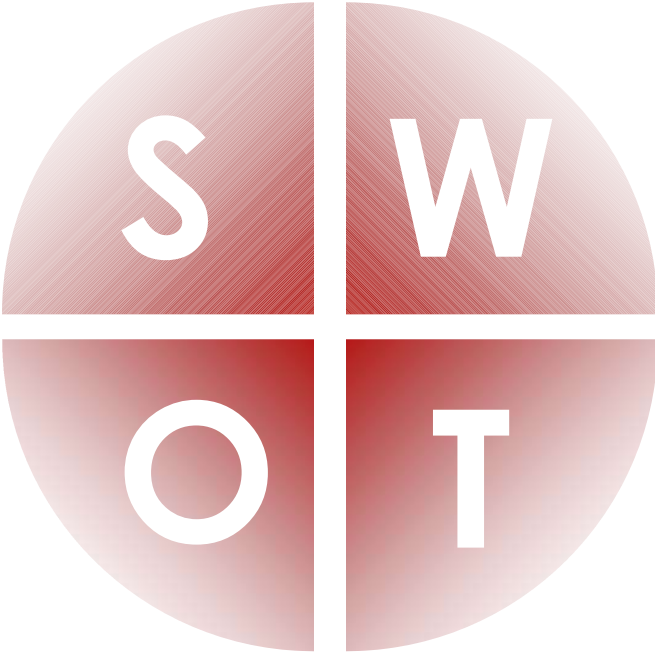

Trade Mission Has all kind of multiple asset Incredible Platform such as PC, Smartphones Html5 and Tablets for brokers .

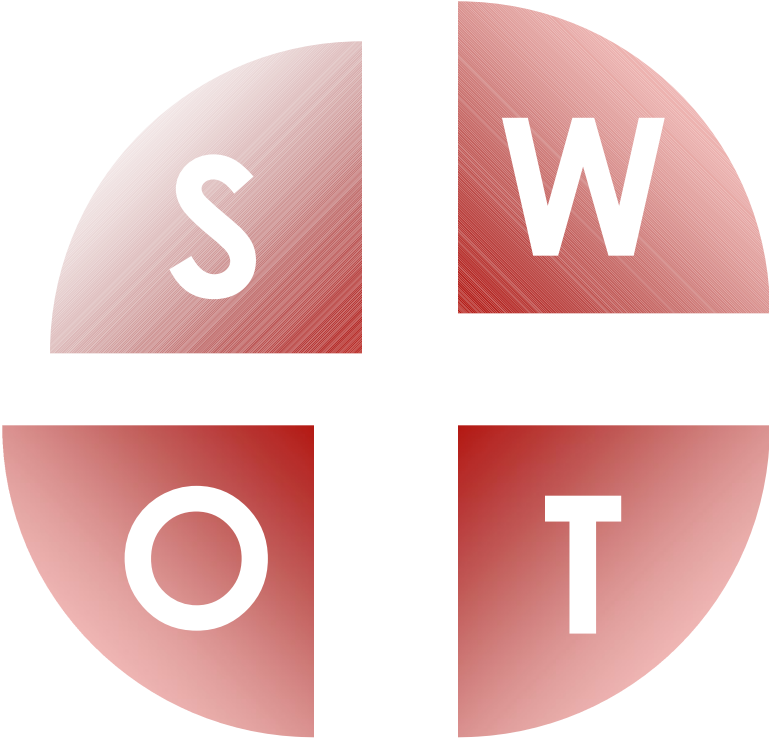

Our Clients are well aware of our support team and well training weekly schedule to all retailers ,institution, hedge funds and high frequency We train Algo Trade through i-Algo software in **Trademission** ,

SWOT

SWOT

Weakness, Threat, and Opportunity

In business there is risk as well as opportunity

our weakness is similar to most startup companies

Heavy Investment are required in The beginning Specially in Stock Market due to strict rules from Every exchange

We need to constantly listen to our customer and find the best solutions because service is the core of our company

There are many opportunities

Trading online is becoming more and more popular, and Highly demanding for Algo Trading Software for Guru's , Retailers and Institutions Specially for Retail Brokers

Money Expo, Set in the City is Continuedly increasing and attracting clients to join the Stock Market through their advertisement. On line Trading is boosting the Stock trading value and giving rich growth for Stock Market Software developers.

Revenue Model for Thailand

Our revenue increased dramatically since the launch of TRADE MISSION + MST PLUGIN

Revenue Model that will give Investors a large and stable return

Being Authorized Local Data Vender

**Expected to cover
basic cost**

i-Ticker New in market for Amibroker platform was developed and released in October 2017 and has satisfied Amibroker Guru's and as approved Local Data Vendor of Thailand Stock Exchange is giving us full confidence in capturing all training academy of Amibroker through out Thailand.

Opening Special

10,700 บาท

We Got good feedback after live in first month we attracted 30 new clients in first month due to new i-ticker in Amibroker . Equals to 300,000 baht / month where others are charging 19900 baht / annum and continue to get first 30 clients a month is our goal .After liv of Trade mission with Classic Ausiris our First Pilot Broker clients will move to The new Platform as coding script and Language is same as Amibroker so by the time we live we will have 500 -1000 clients ready to trade in generate good healthy revenue for Mission Software

White Label

Trade Mission software

**20-25 m Baht &
MM17%**

We will offer the front-end Trade Mission Application for brokers as white label .We can provide for Thailand and all International Market for Brokers , High frequency traders and Hedge Funds Manager with out source code. We are Giving a trial period but there are charges for brokers per transaction fee so they can test the feed back from retailers and decide to to purchase the white label or continue trade with transaction fee . Streaming Made net profit in 2016 revue of 479 Million Baht net profit From Thailand domestic one market . We are currently live in two markets such As Thailand and India and more to come in future

Revenue Model for India

India Follow the road Map of Thailand

Being Data Vender

Expected to cover basic cost

Because we have I-tick and we are using GDFL as a data provider

Retailer Membership Fee

18000RS

This is a promotional price and we plan to have our users use Trade Mission after, and the marketing will be according to same road map of Thailand and because there is a huge number of brokers there is a lot and require New application Our New platform will give attraction to Brokers , retailers and hedge funds as our Most new advance I-ticker has given a big surprise for a startup company as most new incredible Concept on iTicker in Indian Market. As we can live Thais software as technical analysis and trading as 2 in one platform

Similar to Efinance Thai in Thailand but for Indian market they do not have Much of resource of good technical analysis so we can meet our goal as new technical and Trading Platform Solution in India

White Label

15-17 ล้านบาท & MM17%

We will sell front-end without source code which there will be a 6 month period base on transaction fee or share commission up to 50% like or they can take the right to purchase the software as white label but with out source code following the step as planned for Thailand and other International market

Revenue Model for India

Our revenue increased dramatically since the launch of TRADE MISSION + MST PLUGIN

ค่าขาย software

**15-17 mil bht &
MM17% per broker**

We will sell front-end without source code
which there will be a 6 month period like Thai
marker

Many Securities India and Dubai is going to buy Trade Mission and is currently under negotiation and is going to be completed with in next 2-3 month and we believe that there is a 90% chance the deal is going to be completed and we can deliver within 6 months.

Two brokers Securities is currently engaging in contract writing to split the commission fees of 50% for every buy orders made through Trade Mission in the 3 month period we are developing our solution and seeking market approval. There is no cost for engaging in this action so we are opening a new opportunity for other projects in Thailand to engage in the Indian market and there is no cost but they must develop the solution according to the terms of the market

Marketing

We find our customers form both offline and online Channels

Offline Marketing
